22nd May 2020

Acts of Kindness continuing this week.....

A very special cake delivery.....

This week our Care Manager Sarah was visited by Derek from **Archer Business Solutions** so that she could hand over her completed project for her Level 5 qualification. Even with all of the challenges that working through a pandemic has presented Sarah has stayed focused and worked hard to stick to her completion deadline. Derek knows our team so well and brought along with him a lovely selection of cakes...A big 'Thank you' to Derek

Appreciation for isolation bags...

A huge thank you to Stamford **Morrisons Stamford – Community Champion** who donated isolation bags for our customers to enjoy at home. Dorothy was so grateful for hers here.

Kindness is so overwhelming in our wonderful town right now and we are so appreciative of everything

My husband and myself would like to thank you so much for our isolation bag that we received from Wright Care, couldn't believe it, so kind of you, so thank you very very much, it's much appreciated, BA

Beautiful cards for the Care Team

These wonderful handmade cards landed on doorsteps this week for the care team as a little reminder in time to come of the hero's they are and always will be. Frontline care workers are keeping our most vulnerable safe and we think your amazing and should be applauded every day for what you do. These bespoke lovely cards were made by **Frankly Fancy** she is just splendid and makes so many amazing pictures frames and gifts. She wanted to do something for our team and this is what we came up with to be treasured.

We love receiving such kind words from family members, our Care Team truly do deserve all of the praise they are receiving at the moment

*Dear Wright Care at Home
Another week passes and mum is still safe and well at home. We attribute this to the professional and personal care she is receiving from your team and want to say thank you again. She is much brighter this week and getting back to telling me off again. Could you pass on our thanks on to your team. It is really reassuring to know that she is being looked after so well.
Kind Regards
MB*

Face shields donated...

We have continued to receive essential stocks of **Prusa Face Shields** this week. Craig and Sarah Revie set up their own production line at home and a Go Fund Me page for donations to be able to provide local Care companies and Peterborough City Hospital with face shields. We really cannot Thank them enough for continuing with this vital work
