Acts of Kindness continuing this week.....

Ellie Star Foundation pamper Care Team.....

Some of our incredible hero's receiving their pamper care packages this week, all from the Ellie Star foundation. Ellie was a care worker who would certainly during this time of been keeping our customers laughing with her infectious qualities. Sadly, she is now up amongst the stars but we will always continue to carry on her legacy. Ellie continues to work alongside us daily and for all our new members who join us they are always aware of the hero she was. Following Covid we are very much looking forward to working with the foundation to support young carers in these roles

Rainbows of hope.....

This lovely picture was sent in by a member of the Care Team, these displays really brighten their day and show just how much communities support them in their work

Poem written for the Care Team.....

We were sent this beautiful poem by Krystal-Louise, a granddaughter of one of our super carers Donna. She is just 8 years old. How amazingly talented is she. We will be treasuring this for years to come. Donna then presented us with a new mascot bear. Handmade in her time between working shifts on the frontline. She's called Winnie and even has her own uniform
Such a special gift for us. Now sat on our office fireplace.
Thank you to both of you. Such a talented family.

Amazing Carers

There is a bunch on carers that run around our town
No matter what the weather they never seem to frown
They go house to house delivering the best care
Day or night for their clients they are always there
They clean lift wipe down and chat with the elderly folk
But the extent these carers go to is not a joke
They have bad times and good times too
But putting others first is what they do
These carers travel around on car bike and foot
And wear the right attire for the professional look
They are efficient smart and full of heart
They are professional punctual and always thorough
And no client is more important than the other
Morning lunch time dinner and daily drop ins
They never know what their day could bring
But in a beautiful shade of purple they still carry on doing their best
Never much time these days to rest
Whilst we go through terrible times alone
And we cant visit our grandparents at home
We sit and wonder what to do and who can look after them there
So call upon the carers the ones that have so much heart to share
Thank you everyone at Wright Care!!
