Sammy Davis-Wright brings home the Home care employer award for the East Midlands.....

In November 2023 we attended the 'Great British Care Awards' in Nottingham where we were nominated and shortlisted as a finalist for 'The Home care Employer Award' Shortlisted from over 400 providers in the East Midlands we already felt this was a huge achievement.

Following a judging day where Sammy our Director attended an interview on the night 'Wright Care at Home' took home the winning award!

Here's what the judges had to say....

"Samantha is the driving force behind the entrance into care, her unwavering values and fervor for providing the right support in people's homes radiate. Despite being a small company, her immense heart sets her apart. Keep forging ahead, Samantha; the social care realm thrives with individuals like you."

INTERNATIONAL

WOMEN'S DAY

Wright Care at Home

International Women's day...

On the 8th March we celebrated 'International Womens day.'

We are very fortunate and priviledged to have such an amazing team of women at Wright Care at Home. International women's day celebrates social, economic, cultural, and political achievements of women.

The day initiated lots of conversation around the role models and people we all look up to in society.

Wright Care at Home

PROMOTING INDEPENDENT LIVING

Introducing Abbie, Megan and Ellie-Mae....

We are delighted to announce the introduction of our three new carers Abbie, Megan and Ellie-Mae.

Our three new team members have joined our Bourne and Stamford Care team.

Our Care Manager welcomes little Hugo

We are excited to announce the safe and healthy arrival of baby Hugo.

Sarah our 'Care Manager' and her partner Tom welcomed his arrival in February.

Both Mummy and baby are doing really well.

We were really excited when Sarah and Baby popped into our

recent team meeting to see us all.

We are all sending Sarah and family wishes for a happy maternity leave.

All three of our new carers have settled in quickly and are already making such a difference to our teams and customers.

Megan has recently become a fully fledged member of the team following a successful induction and training period!

We are looking forward to the care journey we now embark on with our newest team members and seeing them go from strength to strength.

Easter Art competition welcomes lots of entries for our 2024 prints....

This year we wanted to raise the awareness of the role of a carer to our younger generations that will be shaping the future of Health and social care.

We spread the news in our local towns to welcome entries and budding artists to design an Easter card. Our customer 'Audrey' then judged the entries and the winning designs will be hand delivered this Easter to all of our customers.

We hope you enjoy them, along with the Easter treats from all of us at Wright Care at Home.

Our entries were for three categories ages 5 to 10.

Meet two new additions to our management team...

Leigha

Julie

In October we welcomed two new members to our management team to support with the increasing growth within our care team and customer areas. Please meet Leigha and Julie.

Leigha has joined us from a background in home care. Leigha is our newly appointed Care Coordinator and will be responsible for the allocating of our customer visits.

Julie who has a wealth of experience for 20 years joins us as our Care supervisor. Julie will be leading our Care Ambassadors to ensure we are delivering high standards of care and supporting our teams across the board.

Welcome to the team ladies! We are excited to have you on board.

Wright Care at Home

PROMOTING INDEPENDENT LIVING

WE'RE PROUD TO BE

CELEBRATING LIVING WAGE WEEK

AS AN ACCREDITED

LIVING WAGE EMPLOYER

LIVING WAGE WEEK

2023

Wright Care at Home celebrate being one of few Living wage employers in the area....

We are extremely proud to maintain our Living wage Foundation accreditation for the 3rd year in a row.

We are one of very few home care providers who ensure that all of our carers and extended team members receive the living wage rate of pay.

We truly believe in the skills it takes to be a home care worker and will continue to recognise our staff for the incredibly hard work they do which takes dedication, patience, flexibility and above all else compassion.

Our carers often work unsociable hours to make a difference and we are thrilled to be able to appreciate them by being part of the 'Living wage movement.'

Our Stamford carer of the month.

Donna was nominated by several of her care team for her unwavering approach to delivering consistent and high levels of care, but most importantly because she is so modest in all she does.

Donna is often found to be going above and beyond supporting our customers with what they need to help them further to be safe in their own home.

Donna manages to always wear a smile and deliver such high standards of care. She is always thinking of her team's well-being and is there to offer a line of support.

Donna also in November was shortlisted as a finalist for 'Home carer' of the year in the East Midlands.

A wonderful recognition of her hard work and dedication to her role.

Our Bourne carer of the month.

June was nominated by her colleagues and team for her consistent and on-going championing that she does of those on her team.

June always recognises the strengths of others and their skills. She will call in daily from her run as a carer and shout out the contribution of those in her team.

June champions our new carers joining our team and takes them under her wing to make them feel welcome, show them the role and make sure they feel supported.

This makes such a difference to the team especially those new into health and social care! Congratulations June!
